

CAMPAGNOLA
PNEUMATIC & ELECTRONIC SYSTEMS

PROFESSIONAL HARVESTING MACHINERY
FROM CAMPAGNOLA OF ITALY

The ECO PLUS 1500 can run up to;

- **15** Campagnola pneumatic secateurs.

- **7** Campagnola Olistar olive harvesters.

- **3** Campagnola pneumatic chainsaws.

1515 ltr per minute PTO compressor

Campagnola's wide range of compressors is the result of years of research and expertise in the field of pneumatic equipment. This has directly attributed to more efficient and reliable products which Campagnola has become renowned for the world over.

The *Eco Plus* range are PTO or "Power Take-Off" compressors, meaning they connect via a standard three point linkage to a tractor drive shaft to draw power. An excellent feature of the *Eco Plus* line is the big flywheel which, as well as balancing the rotating parts, acts as fan to cool the compressor block.

The *Eco Plus* also features a pin for mounting a hose reel and glycerine pressure gauges. The large 1500 ltr/min free air delivery makes the *Eco Plus* a must for farms of any size.

ECO PLUS 1500 TECHNICAL SPECIFICATIONS

| Pistons | HP Required | ltr/min & c.f.m. | max rpm | tank sizes | max bar | max psi | product dimensions | weight |
|---------|-------------|------------------|---------|------------|---------|---------|--------------------|--------|
| | | | | | | | | |
| 2 | 30 | 1515 - 53.3 | 1400 | 25+2x14 | 11 | 156 | 615 x 665 x 1025 | 154kg |
