

PROFESSIONAL GRADE UV STABILISED POLYURETHANE AIR HOSE

Polyurethane air hose and custom built hose reels.

Made in Adelaide and fitted with German made polyurethane air tube. All hose reels can be made up on different lengths with differing diameter PU to suit each users Requirements. We also fit Nitto, Jamec, Ryco or European style fittings to suit. Three size reels are available:

Heavy Duty Reel

Max. capacity of 250m of 8x6 air hose.

Available with brass swivels in 1/4 or 1/2 BSP sizes.

Powder coated steel drum

Heavily constructed zinc plated frame suitable for mounting on agricultural equipment and other applications

Drum size - 380 O.D. x 170 I.D. x 300 Wide.

HR50 and HR35 Reels

Brass swivels suitable for 1/4 BSP fittings

Powder coated steel construction.

Heavily constructed zinc plated frame suitable for mounting on agricultural equipment and other applications.

Shear hoses are used to lengthen the life of your air hose and fittings.

Usually 1m long but can be made to measure, shear hoses have a swivel hose protector attachment that fastens straight into the back of your air tool. The swivel allows for more maneuverability and avoids unnecessary fatigue whilst the hose protector stops the air tube from kinking. Our shear hoses are made from German PU (poly urethane) air tube and quality fittings like Nitto, Jamec, Ryco and European style to suit your rig.

TECHNICAL SPECIFICATIONS

Hose Colour	Hose Diameter	Weight per Metre	Minimum Bend Radius	Pressure Load Limit
Red	10mm x 8mm	41.92g	45mm	20°C: 340psi
Yellow	8mm x 6mm	30.19g	30mm	20°C: 370psi
Blue	6mm x 4mm	19.92g	18mm	20°C: 450psi
